| Website                                      | www.brandt.co  |  |
| E-mail                                       | msds@brandt.co   |  |
| Contact person<br>Emergency phone number     | EH&S / Regulatory Department<br>CHEMTREC (24 hours):   |  |
|  | USA, Canada, Puerto Rico   | 1-800-424-9300   |
|  | Virgin Islands   | 1-800-424-9300   |
|  | International Maritime   | +1 (703) 527-3887  |
| 2. Hazard(s) identification                  |  |  |
| Physical hazards                             | Not classified.  |  |
| Health hazards                               | Not classified.  |  |
| Environmental hazards                        | Not classified.  |  |
| OSHA defined hazards                         | Not classified.  |  |
| Label elements                               |  |  |
| Hazard symbol                                | None.  |  |
| Signal word                                  | None.  |  |
| Hazard statement                             | The mixture does not meet the  | criteria for classification.                               |
| Precautionary statement                      |  |  |
| Prevention                                   | Observe good industrial hygien   | e practices.   |
| Response                                     | Wash hands after handling.   |  |
| Storage                                      | Store away from incompatible r   | naterials.   |
| Disposal                                     | Dispose of waste and residues  | in accordance with local authority requirements.           |
| Hazard(s) not otherwise<br>classified (HNOC) | None known.  |  |
| Supplemental information                     | None.  |  |

# 3. Composition/information on ingredients

Mixtures

| Chemical name                          | Common name and synonyms                    | CAS number                   | %        |
|--|---|------------------------------|----------|
| Urea                                   |   | 57-13-6                      | 3 - < 5* |
| EDTA, Disodium Copper(II) Salt         |   | 14025-15-1                   | < 1*     |
| Manganese EDTA, disodium salt          |   | 15375-84-5                   | < 1*     |
| Disodium Octaborate Tetrahydrate       | 9   | 12008-41-2                   | < 0.2*   |
| Other components below reportab        | le levels                                   |                              | 90 - 100 |
| *Designates that a specific chemical i | dentity and/or percentage of composition ha | s been withheld as a trade s | ecret.   |
| Material name: Brandt 10-45-10 Micro   |   |                              |          |

31002 Version #: 07 Revision date: 07-23-2018 Issue date: 06-05-2015

## 4. First-aid measures

| Inhalation   | Move to fresh air. Call a physician if symptoms develop or persist.  |  |
|--|--|--|
| Skin contact   | Wash off with soap and water. Get medical attention if irritation develops and persists.                         |  |
| Eye contact  | Do not rub eyes. Rinse with water. Get medical attention if irritation develops and persists.                    |  |
| Ingestion  | Rinse mouth. Get medical attention if symptoms occur.  |  |
| Most important symptoms/effects, acute and delayed                           | Dusts may irritate the respiratory tract, skin and eyes.   |  |
| Indication of immediate<br>medical attention and special<br>treatment needed | Treat symptomatically.   |  |
| General information  | Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |  |

# 5. Fire-fighting measures

| Suitable extinguishing media                                     | Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).                                   |
|--|---|
| Unsuitable extinguishing media                                   | Do not use water jet as an extinguisher, as this will spread the fire.                        |
| Specific hazards arising from the chemical                       | During fire, gases hazardous to health may be formed.   |
| Special protective equipment<br>and precautions for firefighters | Self-contained breathing apparatus and full protective clothing must be worn in case of fire. |
| Fire fighting<br>equipment/instructions                          | Use water spray to cool unopened containers.  |
| Specific methods   | Use standard firefighting procedures and consider the hazards of other involved materials.    |
| General fire hazards   | No unusual fire or explosion hazards noted.   |

## 6. Accidental release measures

| Personal precautions,<br>protective equipment and<br>emergency procedures | Keep unnecessary personnel away. Wear appropriate protective equipment and clothing during<br>clean-up. Use a NIOSH/MSHA approved respirator if there is a risk of exposure to dust/fume at<br>levels exceeding the exposure limits. For personal protection, see section 8 of the SDS. |
|---|---|
| Methods and materials for<br>containment and cleaning up                  | Avoid the generation of dusts during clean-up. Collect dust using a vacuum cleaner equipped with HEPA filter. Stop the flow of material, if this is without risk.   |
|   | Large Spills: Wet down with water and dike for later disposal. Shovel the material into waste container. Following product recovery, flush area with water.   |
|   | Small Spills: Sweep up or vacuum up spillage and collect in suitable container for disposal. For waste disposal, see section 13 of the SDS.   |
| Environmental precautions   | Avoid discharge into drains, water courses or onto the ground.  |
| 7. Handling and storage   |   |
| Precautions for safe handling   | Minimize dust generation and accumulation. Provide appropriate exhaust ventilation at places where dust is formed. Avoid prolonged exposure. Practice good housekeeping.  |

**Conditions for safe storage, including any incompatibilities** Store in original tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

#### **Occupational exposure limits**

| US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000) |         |         |  |
|---|---------|---------|--|
| Components  | Туре    | Value   |  |
| Manganese EDTA,<br>disodium salt (CAS<br>15375-84-5)              | Ceiling | 5 mg/m3 |  |

| Components   | Туре  | Value  | Form   |
|--|---|--|--|
| Disodium Octaborate<br>Tetrahydrate (CAS<br>12008-41-2)  | STEL  | 6 mg/m3  | Inhalable fraction.  |
|  | TWA   | 2 mg/m3  | Inhalable fraction.  |
| EDTA, Disodium Copper(II)<br>Salt (CAS 14025-15-1)   | TWA   | 1 mg/m3  | Dust and mist.   |
|  |   | 0.2 mg/m3  | Fume.  |
| US. NIOSH: Pocket Guide to   | Chemical Hazards  |  | _  |
| Components   | Туре  | Value  | Form   |
| EDTA, Disodium Copper(II)<br>Salt (CAS 14025-15-1)   | TWA   | 1 mg/m3  | Dust and mist.   |
| Manganese EDTA,<br>disodium salt (CAS<br>15375-84-5)   | STEL  | 3 mg/m3  | Fume.  |
| ,  | TWA   | 1 mg/m3  | Fume.  |
|  | nmental Exposure Level (WEEL) Guid  |  | _  |
| Components   | Туре  | Value  | Form   |
| Urea (CAS 57-13-6)   | TWA   | 10 mg/m3   | Total particulate.   |
| logical limit values   | No biological exposure limits noted for   | r the ingredient(s).   |  |

# 10. Stability and reactivity

| Reactivity                            | The product is stable and non-reactive under normal conditions of use, storage and transport. |  |
|---------------------------------------|---|--|
| Chemical stability                    | Material is stable under normal conditions.   |  |
| Possibility of hazardous<br>reactions | No dangerous reaction known under conditions of normal use.                                   |  |
| Conditions to avoid                   | Contact with incompatible materials.  |  |
| Incompatible materials                | Strong oxidizing agents.  |  |
| Hazardous decomposition<br>products   | No hazardous decomposition products are known.  |  |

# 11. Toxicological information

# Information on likely routes of exposure

| Inhalation   | Dust may irritate respiratory system. Prolonged inhalation may be harmful. |  |
|--|--|--|
| Skin contact   | Dust or powder may irritate the skin.                                      |  |
| Eye contact  | Dust may irritate the eyes.  |  |
| Ingestion  | Expected to be a low ingestion hazard.                                     |  |
| Symptoms related to the physical, chemical and toxicological characteristics | Dusts may irritate the respiratory tract, skin and eyes.                   |  |

## Information on toxicological effects

# 13. Disposal considerations

Other adverse effects

| -  |  |
|--|--|
| Disposal instructions                    | Collect and reclaim or dispose in sealed containers at licensed waste disposal site.   |
| Local disposal regulations               | Dispose in accordance with all applicable regulations.   |
| Hazardous waste code                     | The waste code should be assigned in discussion between the user, the producer and the waste disposal company.   |
| Waste from residues / unused<br>products | Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions). |
| Contaminated packaging                   | Since emptied containers may retain product residue, follow label warnings even after container is<br>emptied. Empty containers should be taken to an approved waste handling site for recycling or<br>disposal. |

# 14. Transport information

#### DOT

Not regulated as dangerous goods.

# IATA Not regulated as dangerous goods.

IMDG

Not regulated as dangerous goods.

# 15. Regulatory information

- US federal regulations This product is not k
- This product is not known to be a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D)

Not regulated. CERCLA Hazardous Substance List (40 CFR 302.4)

| Manganese EDTA, disodium salt (CAS 15375-84-5)  | Listed. |
